(855) NOMAD-4-U

Base Chemistries

Strata • CORROSION

- 30A** anionic filming ester
- 30C** cationic filming amine, bio-dispersant
- 31A** oil-based filming amines
- 31E** oil-based filming amines/esters

Delta • SCALE

- 23C** carbonate/sulfate inhibitor
- 23S** CaSO₄ scale dissolver
- 215** safe-acid CaCO₃ scale dissolver
- 200** multi-functional polymeric inhibitor

Vulcan • SULFIDES

- 667** formaldehyde-free scavenger
- 660** oil-based scavenger
- ZF7** aqueous decontaminant
- ZFX** pyrophoric iron passivation

Dune • PARAFFIN

- 440** polymeric solvent/inhibitor
- 401** high Kb solvent blend
- 40X** multi-component dispersant/inhibitor
- 40S** aqueous solvent/dispersant

Vanta • ASPHALTENE

- 130** high Kb solvent blend
- 111** lipophilic solvent/dispersant
- 11E** aqueous solvent/dispersant
- 13T** high temperature solvent blend

Nova • SPECIALTY

- 717** ammonia treatment
- RX7** heavy deposits solvent
- WD3** degreaser/water displacement
- ST4** slop oil treatment

Nomad Chemical brings 25 years of hands-on chemical expertise coupled with a relentless drive and commitment to serve as a leader in chemical specialties for asset integrity, flow assurance, and reliability & maintenance engineering operations.

We do not make specialty chemicals. We create chemical specialties. Whereas most chemical suppliers sell what's on their shelf, Nomad builds what's needed using our specialty intermediates. And we don't just deliver chemicals, we partner in the process – learning each system, each surface, each challenge, each necessity; until the right solution takes shape and form.

Every formulation we create is born from extensive field experience and intensive academic and research studies, designed to perform where conditions are unforgiving and reliability is non-negotiable. The result is a solution built for one purpose – yours.

“Our Pecos SWD was constantly plugging in the equalization and flow lines, sometimes as much as once a day. Nomad came in, evaluated our chemical treatment program, identified deficiencies, and revamped our entire program with their Delta products. Since then, no more issues exist, savings us thousands in service work. We highly recommend them.” –VP Operations, Texas SWD Operator
