Intermediates

Strata • CORROSION

- 30A** anionic filming ester
- 30C** cationic filming amine, biodispersant
- 31A** oil-based filming amines
- 31E** oil-based filming amines/esters

Delta • SCALE

- 234** carbonate/sulfate inhibitor
- 204** CaSO₄ scale dissolver
- 237** safe-acid CaCO₃ scale dissolver
- 200** multi-functional polymeric inhibitor

Vulcan • SULFIDES / AMMONIA

- 667** formaldehyde-free scavenger
- 660** oil-based scavenger
- ZF7** aqueous decontaminant
- 717** ammonia treatment

Dune • PARAFFIN

- 440** polymeric solvent/inhibitor
- 401** high Kb solvent blend
- 40X** multi-component dispersant/inhibitor
- 40S** aqueous solvent/dispersant emulsion

Vanta • ASPHALTENE

- 130** high Kb solvent blend
- 111** solvent/dispersant
- 11E** aqueous solvent/dispersant emulsion
- 13T** high temperature solvent blend

Nova • SPECIALTY ENGINEERING

- ZFX** pyrophoric iron passivator
- RX7** heavy deposits solvent
- WD4** degreaser/water displacement
- S63** slop oil treatment

Nomad Chemical brings 30 years of hands-on chemical expertise coupled with a relentless drive and commitment to serve as a leader in chemical specialties for asset integrity, flow assurance, and reliability & maintenance engineering operations. We exist to transform challenges into possibilities via partnership, service, and innovation. Guided by a devout purpose forged in the field, our chemistry moves beyond products to become lasting solutions.

We do not make specialty chemicals. We create chemical specialties. Whereas most chemical suppliers sell what's on their shelf, Nomad builds what's needed using our specialty intermediates. We don't just deliver chemicals, we partner in the process – learning each system, each surface, each challenge, each necessity; until the right solution takes shape and form. Every formulation we create is born from extensive field experience and intensive academic and research studies, designed to perform where conditions are unforgiving and reliability is non-negotiable.

"We have used Nomad's corrosion inhibitor products for 5 years now and have had great success with preventing corrosion and mitigating risk of failures. The customer service that Nomad provides is great and we have a great partnership." –VP Engineering, Texas-based Energy Service Company
